

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The Hand of God

THE Master Mind had scarce conceived
Its mighty thought divine,
Than straight his potent touch enwrap
That thought in marble line.

THE HAND OF GOD

THE form he hewed has symbolized
A truth that God might utter,
To guide our wavering souls on earth
In dispute o'er mind and matter.

THE HAND OF GOD

OUT of an unshaped, infinite Mass,
 (So the thought of the Master ran),
That forms Existence, whate'er it be,
Stretches a wondrous hand,

THE HAND OF GOD

WHOSE lines are blurred in infinite
strength
To obey the Will behind,
Which myriad years have named alway,
God, — a Power, — yet blind.

THE HAND OF GOD

BUT the Hand of God is a hand of
Love,—

The hand of an Infinite Whole
That grasps a clod of its own self
To make the human soul.

THE HAND OF GOD

UPON that hand appears no strain,
Nor sign of human toil, —
Its task is done with infinite ease,
All human thought to foil.

THE HAND OF GOD

WITH mystic pressure unseen by Man,
This Hand of God out-welds
A vintage of Life of finite vein,
As th' ethereal self-mass yields

THE HAND OF GOD

TO a visible form of God on Earth, —
A man and woman, — known
To us but by external sign:
The inner is his, alone.

THE HAND OF GOD

YEA, a visible form of God on Earth,—
A man and woman, born
To live as units separate, —
A counterpart, asunder torn.

THE HAND OF GOD

A SORRY work our ignorance has
wrought
Out of this plan, Above!—
For the Unit-two from the Mass are
formed
With arms entwined in love:

THE HAND OF GOD

SO closely knit that thus they seem
To ooze together, out the Mass,
Lip to lip, — and heart to heart;
Sympathy divine, — their clasp.

THE HAND OF GOD

THUS, in love, from the Mass conceived,
By the pressure of Its own Hand,
Came a Human Pair, with will set free,
As God's ideal of Man.

THE HAND OF GOD

HE has let them fall from His upraised
Hand,
To be tossed in the world below,—
Piteously unable to ever see
Whence they came, or whither go!
